

Polaroid P4 Music Player

polaroid

The most powerful Polaroid speaker

About the size (but not shape)
of a small watermelon

Can be attached to a speaker stand
for a more concert-like feel

Access your music directly from the Polaroid P4
speaker thanks to the Polaroid Music App

The Polaroid P4 speaker is the largest and loudest of the Polaroid speakers, more than capable of filling even the largest rooms with incredible sound. It's about the size of a small watermelon, if a watermelon was more lightweight and able to play your favorite music. It looks great both sideways and upright, thanks to the partner speaker stand accessory (available separately). And of course, it features the full functionality of the Polaroid Music App, allowing you to set up your favorite music channels and scroll between them easily with the analog dial.
